You are invited to participate in a survey about your beliefs and attitudes. The survey will take approximately 10 minutes. You will be asked to answer some questions. You must be 18 years of age or older to participate in this study.

Your participation is voluntary. You are free not to answer any question or to withdraw from the study at any time. If you feel uncomfortable because of any questions, you do not have to answer although we hope you will. The risks to participating in this survey are related to your feelings about the topics presented and the possible loss of confidentiality.

A report of the results of this study will be provided to you upon request. In order to analyze responses to our questionnaire, your answers will be submitted to Yale University. No identifying information about you will be made public and any views you express will be kept confidential. Individual responses will not be identifiable and all results will be presented as a group of responses.

Findings from this study will be released to policymakers and to the public in aggregate form and they will be reported in scholarly journals, at academic seminars, and at research association meetings. The data will be stored at a secure location and retained indefinitely.

Should you have questions regarding the research project, please contact Scott Bokemper (scott.bokemper@yale.edu).

Start of Block: comprehension question
Q180 We’d like to know how you feel about local news coverage. Please read this short article carefully and answer a few questions about it.

bankVignette MAN ARRESTED FOR STRING OF BANK THEFTS

Columbus Police have arrested a man they say gave his driver’s license to a teller at a bank he was robbing.

According to court documents, Bryan Simon is accused of robbing four Central Ohio banks between October 3 and November 5, 2018.

During a robbery on November 5 at the Huntington Bank, the sheriff’s office says Simon was tricked into giving the teller his drivers’ license.

According to court documents, Simon approached the counter and presented a demand note for money that said "I have a gun." The teller gave Simon about $500, which he took.

Documents say Simon then told the teller he wanted more money. The teller told him a driver’s license was required to use the machine to get out more cash. Simon reportedly then gave the teller his license to swipe through the machine and then left the bank with $1500 in cash, but without his ID.

Detectives arrested him later that day at the address listed on his ID.

typicalnews Do you think this article is typical of local news coverage?

- Yes (1)
- No (2)
- Not Sure (3)
newscomp1 How much money did Simon leave the bank with?

- $500 (1)
- $1,500 (2)
- $5,000 (3)

newscomp2 How was Simon identified by police for the crime he allegedly committed?

- A police officer recognized him (1)
- From video surveillance (2)
- Because he left his ID (3)
- He turned himself in (4)
- None of the above (5)

Start of Block: COVID

covidintro Now we would like to know about your household's experience with COVID-19 and other health behaviors.
Public health officials have determined that people with the following conditions are at greater risk of severe illness if they contract COVID-19. Do you have any of the following conditions? Please select all that apply.

- Chronic lung disease or moderate to severe asthma *(1)*
- Hypertension/high blood pressure *(2)*
- A serious heart condition (other than high blood pressure) *(3)*
- Immunocompromised, such as: Being treated for cancer Received a bone marrow or organ transplant Have an immune deficiency Have poorly controlled HIV/AIDS Prolonged use of corticosteroids or other immune weakening medication *(4)*
- Regular smoker *(5)*
- Body mass index [BMI] of 40 or higher *(6)*
- Diabetes *(7)*
- Chronic kidney disease requiring dialysis *(10)*
- Impaired liver function *(11)*
- None of the above *(12)*
How likely are you to do each of the following things in the next two weeks?

Q269 Please read the text that appears on this page carefully. You will not be able to advance the page for 20 seconds to make sure that you have adequate time to read it.
What are the costs and benefits of bird feeding?

It is difficult to assess the costs and benefits of bird feeding because it is difficult to compare the health of birds without access to feeders with birds that are frequent feeders. Only one study was able to obtain some sound results. That study found that any benefits of feeding only appear to occur sporadically under extreme climactic conditions. No research has been able to demonstrate a cost. Aside from costs and benefits to birds, there is a cost of benefit to humanity. The costs are obvious—the expense of bird feeding supplies.

The benefits include learning more about birds and the joy of connecting with the natural world. Bird feeding provides a direct, intimate view of the natural world for more than 50 million Americans who feed the birds in their yards. It is most popular in winter, when birds seem to need the most help. Some people worry that birds will suffer unless they make great efforts to keep the feeder filled, but research indicates that most birds do not depend on feeders.

Display This Question:

If masktreatment = 1

Protect you

Scientists have shown that wearing a face covering over your mouth and nose substantially reduces your risk of COVID-19 infection by decreasing the amount of virus that you inhale into your nasal passages and lungs.

When a sick individual breathes, sneezes, or coughs, virus particles are expelled into the air where they can be inhaled by others. The more of the virus that makes it into your body, the greater your chances of getting sick with COVID-19.

Scientists tested masks to see if they would stop virus particles from getting into a person's body. They found that an N95 respirator stops at least 95% of virus particles, while a simple cotton cloth mask covering your nose and mouth stops approximately 55% of virus particles.

Display This Question:
If parkTreatment = 0

parkSelf
Suppose you have driven to a local park to go for a 2 hour walk this weekend. The park is crowded with many other people and families out enjoying the good weather.

After parking your car, you walk about 5 minutes into the main area of the park. You suddenly realize that you have left your own face mask in your car. ${e://Field/othersParkaction}$

What do you do?

- Continue your walk because you are outside and the risk of anything bad happening when you’re outside is small (4)
- Continue your walk, but make sure to avoid other people because you do not have a mask (5)
- Return to your car to retrieve your mask (6)
- Return to your car and leave the park (7)
If parkTreatment = 1

parkOther Suppose you have driven to a local park to go for a 2 hour walk this weekend. The park is crowded with many other people and families out enjoying the good weather.

After parking your car, you put on your face mask and walk about 5 minutes into the main area of the park. $\{e://Field/othersParkaction\}$

You run into someone from your neighborhood, who asks if they can join you for your walk. However, when they approach you suddenly realize that they have their face mask hanging around their neck, rather than covering their nose and mouth, while you are properly wearing your mask.

What do you do?

- Continue your walk because you are outside and the risk of anything bad happening is small (4)
- Continue your walk, but make sure to stay distant from your acquaintance because they do not have their mask on properly (5)
- Tell your acquaintance that you are about to leave the park and head back to your car (6)
- Ask your acquaintance to put their mask on so it covers their nose and mouth (7)

If parkTreatment = 2

park3rdParty_notMask Suppose $\{e://Field/name1\}$ and $\{e://Field/name2\}$, two neighbors, run into each other at a local park this weekend. The park is crowded with many other people and families out enjoying the good weather. $\{e://Field/othersParkaction\}$

$\{e://Field/name1\}$ is properly wearing $\{e://Field/gender1\}$ face mask so it covers
${e://Field/gender1}$ nose and mouth, while ${e://Field/name2}$ has ${e://Field/gender2}$ mask hanging around ${e://Field/gender2}$ neck, rather than covering ${e://Field/gender2}$ nose and mouth.

Based on what you've read so far, how much do you think each of these words describes ${e://Field/name2}$?

meetSelf
Suppose you’ve been invited by someone living in your neighborhood to a five-person meeting at their house. The meeting will be held in their living room.

You arrive at their house, which is about 5 minutes from your own home. You pull into the driveway to park. You now remember that you didn’t bring a mask with you. ${e://Field/othersMeetaction}
What do you do?

- Go to the meeting because the risk of anything bad happening is small (4)
- Go the meeting, but try to stay away from other people because you do not have a mask (5)
- Send your neighbor a text saying that you’ve forgotten something and will be right back, and return home to get a mask (6)
- Send your neighbor a text apologizing for having to leave, but say that something has suddenly come up. (7)

**meetOther**

Suppose you’ve been invited by someone living in your neighborhood to a five-person meeting at their house. The meeting will be held in their living room.

You arrive at their house, which is about 5 minutes from your own home. You pull into the driveway to park. The three guests who arrived before you go inside while you are parking.

You have gotten out of your car and put on your mask when the last guest arrives. They get out of their car too, but have their mask hanging around their neck, rather than covering their face and mouth.

What do you do?
Go to the meeting as is because the risk of anything bad happening is small (4)

Go to the meeting, but make sure to stay distant from this person because they do not have their mask on properly (5)

Ask this guest to put their mask on so it covers their nose and mouth (6)

Send your neighbor a text apologizing for having to leave, but say that something has suddenly come up so you can’t come to the meeting (7)
